M. Sc. S 4	20	21	16
Total	179	117	61

## Preview of G-Class:

## Preview of class activities:

Here I specially mention, department staff, they shown highest creativity by preparing new ideas of quiz, worksheets and other academic activities to engage the students in their academic works. Though our whole syllabus is completed and even all internals (Including theory and practical) as well few external practical are already completed, the faculty members and students are in constant touch with academic activities and teaching learning process during this COVID-19 situation. Though it was little bit difficult for few students to join the class without laptop or desktop mode, we share them how to join

google class app and upload your assignments and other work, within short time period all students were join the class.

Academic devotion and ICT approach of all faculty members must be appreciated though they were also engaged with family responsibilities and under stress conditions, they prepared 117 lectures and around 61 other activities to engaged and being in touch with 179 students. Apart of these all, in short notice Dr. Hitendra Jani, Dr. Jay Bergi also provide their lectures notes and assignments. Certain general lectures on COVID, ECO-Home, Forensic Hydrology, Golden rice, effect of lock-down in nature were also covered by faculties.

A part of these all faculties are involved in their research work, paper publication and book chapter writing activities along with joined various faculty development programe.

Once again I am thankful to my colleges and all students of environment science department who participated in teaching learning and assessment mode as per UGC's mentions circulars.

Thanking you,

Dr. Ratna Trivedi

(HOD, Environmental Science)
